

PRODUCT INFORMATION

Seasol plus Nutrients Fruit & Citrus

Seasol plus Nutrients Fruit & Citrus is a pelletised plant and soil treatment boosted with fast-acting fertiliser for all fruiting and citrus plants.

INSTRUCTIONS FOR USE

Seasol plus Nutrients Fruit & Citrus is a rich source of seaweed, nutrients, trace elements and natural composts to revitalise soil health and promote growth, flowering and fruiting.

It delivers a special blend of nutrients and trace elements to increase yields for tastier fruit and citrus. Extra potassium, iron, magnesium and calcium helps with budding and flowering.

Seasol plus Nutrients Fruit & Citrus is enhanced with seaweed to help stimulate a strong root system. It also helps to reduce stress from heat, frost, pests and diseases.

Natural compost and organic matter enrich the soil to improve soil moisture and nutrient retention.

DIRECTIONS FOR USE

Seasol plus Nutrients Fruit & Citrus can be applied any time, generally every 6 to 8 weeks or as needed. For established fruit & citrus plants apply 140 grams per square metre or follow the application table below for more specific rates.

Mix into the topsoil and water it in thoroughly after application.

PLANT TYPE	APPLICATION 1 teaspoon = 5 grams	FREQUENCY
Fruit & Citrus 15cm pot	6 grams	Every 6 to 8 weeks
Fruit & Citrus 20cm pot	15 grams	Every 6 to 8 weeks
Fruit & Citrus 25cm pot	20 grams	Every 6 to 8 weeks
Fruit & Citrus 30cm pot	25 grams	Every 6 to 8 weeks
Transplanting/Planting		
Fruit & Citrus Plants	100g per m ²	Prior to planting into the soil.
Fruit & Citrus Trees < 1.5m	30-50g per planting hole	Apply to base of hole and cover with 1-5cm of soil.
Fruit & Citrus Trees > 1.5m	50-70g per planting hole	
Established		
Fruit & Citrus Plants	100 grams per m ²	Every 6 to 8 weeks
Fruit & Citrus Trees	140 grams per m ²	

TYPICAL ANALYSIS

W/W: Nitrogen (N) 10.0%. Phosphorus (P) 1.3%. Potassium (K) 14.3%

USAGE TIPS

Seasol plus Nutrients Fruit & Citrus is the perfect partner for any garden project applied throughout the year.

- ✓ Apply **Seasol plus Nutrients Fruit & Citrus** to established fruiting & citrus plants to keep them happy and healthy with tasty produce.
- ✓ To keep fruit & citrus in full production, harvest produce when ripe for maximum taste. Share with family and friends.
- ✓ Apply to the base of the hole and backfill soil when planting. Water it in with **Seasol** to aid plant establishment.
- ✓ Apply it in the cool of the day. Water regularly and deeply for good fruit formation.
- ✓ It is not recommended to apply when temperatures are above 25°C.
