## “PLANT of HEALTH” FRUIT & VEG TRIPLE BOOST

### Biologically enhanced 10N 10P 10K Foliar Fertiliser

Batphone Australia, distributor of the eco- friendly “**Plant of Health**” range of fertilizers has released a “state of the art” foliar fertilizer especially blended for the **high production** agriculture and commercial growing. We recognised the need for a high performance foliar fertiliser while continuing our path towards more environmentally responsible practices. **Fruit and Veg Triple Boost** takes conventional, reactive 10N-10P-10K fertiliser and blend it with **organic compounds extracted from fish, and earthworm exudates** to give you a product that has **enormous plant nutrition**, coupled with minimal leaching and **excellent up take**. The organic compounds buffer the NPK and support soil fertility, while a range of natural growth hormones delivers complete nutrition to the plant. **Seaweed** is added for plant strength and fungal resistance with Triacantanol, an extract from bees wax, is a powerful photosynthesis enhancer. Added **Trace Elements** ensures luxury uptake of minerals maintaining mineral balance and plant health. **Standard Triple Boost** is suitable for domestic or commercial use on all plants, fruit and vegetables, vines, grains, turf and **Fruit and Veg Triple Boost** is specifically blended for high production growing.

#### BENEFITS

- Easy, convenient application
- Strengthens cell walls. Strong cell walls play a key roll in resisting insect and fungal attack.
- Healthy Vigorous Growth
- Cost effective
- Substantial Root Mass Increase
- Rich, green, healthy appearance
- Increased yield and Shelf Life
- Ideal for Fruit, Vegies, Vines, Grain, Strawberries, Turf
- **Over 50 Crop Specific Formulations available.**

#### Applications

To be used as part of a balanced nutrition program.

#### SHAKE or STIR WELL BEFOR USE

FOLIAR :- 50ml / 100 Sq Met, 5 – 7 Litres / Hectare

DILUTION :- 1 : 100 (MINIMUM)

PROPAGATION:- 1 : 200

DOMESTIC APPLICATION:- APPLY UNTIL RUN OFF  
May be used as root drench.

NOTE:- Soil testing and Plant tissue analysis will accurately determine plant requirements. Call if required

For enhanced performance include wetter / sticker with foliar fertilisers.

APPLY EVERY 2 WEEKS FOR MAXIMUM RESULTS  
**CROP SPECIFIC APPLICATIONS AVAILABLE**

#### Typical Analysis STD BLEND

Nitrogen in Organic form	1.56%
Nitrogen in Ammonium form	3.85%
Nitrogen as urea	4.60%
Total Nitrogen	10.01%
Total Phosphorous	10%
Potassium as Organic Potassium	1.40%
Potassium as Potassium Phosphate	9.20%
Total Potassium	10.2%
Calcium	310 ppm
Silica	166 ppm
Magnesium	370 ppm
Sulfur	2952 ppm
Iron	1428 ppm
Copper	187 ppm
Zinc	804 ppm
Manganese	663 ppm
Boron	415 ppm
Molybdenum	44 ppm
pH	6.8 – 7.0
Conductivity	72 – 96 mS/cm
Solubility	Fully miscible
Appearance	Thin black liquid. Slight smell.

**brilliant... naturally!**

**Ingredients include, BUFFERED NPK, LIQUID VERMICAST, LIQUID FISH and SEAWEED, HUMIC and FULVIC ACID, TRACE ELEMENTS, TRIACANTANOL and VITAMINS C, E and B.**
