

### Our Mission

Our mission is to provide you with  
easy-to-use, eco-friendly products  
for beautiful, healthy gardens while  
minimising the use of harsh  
chemicals and pesticides

### What They Say:-

"We are regularly asked "Why do you plants look so good?" and its because we fertilise regularly with Organic Link & Plant of Health liquid fertilisers"  
Chelsea Van Rijn. Trevallan Lifestyle Centre

"We grow roses commercially & they have to be of the highest quality. We have been using Plant of Health products now for over 5 years & we are delighted with the results. We have strong vibrant plants & we have reduced or harsh chemicals sprays by over 80%  
Michael Obrist . Wholesale Rose Grower  
rochedalenurseries@bigpond.com

We just use the products & the plants love them!  
A Irwin. Shorncliffe.

An Australian Owned Company

## General Purpose Products for Strong Healthy Gardens

That's.....Plant of Health! **brilliant... naturally!**

When it comes to getting you soil right, we believe that if you only do things to increase your soil fertility then it is hard to go wrong. These products are designed for natural growing solutions for most situations where soil testing has not been done. You will see the results.

### Liquid Seaweed Concentrate

Our liquid seaweed is manufactured from **pure sun dried** Tasmanian Bull Kelp that washes to the shore from the southern ocean. The kelp is liquefied using a **cold** fermentation process similar to wine; as opposed to other liquid seaweeds that use heat extraction methods. This process means all the goodness vitamins, minerals, amino acids and **beneficial** components of the original kelp are preserved. **BFA registered**, our Liquid seaweed is not only beneficial for growing plants but also can be used as a mineral **supplement** for animals.

Sizes:- 500mL, 1L, 5L, 20L, Bulk

### Silica & Potash Liquid Concentrate

**Silica** has been proven to **strengthen** plants which is a key for warding off pests and disease. Weak plants are prone to pest attack and fungal problems and adequate silica levels ensure plants stay strong and healthy. Added **Potash** is great for assisting roots, shoots and flower formation. This product is used in almost **all** of our fertiliser programs and is a **"must have"** for the domestic gardener or pro grower. Ideal for nearly all plants and essential for fruit trees and vegies.

Sizes:- 500mL, 1L, 5L, 20L, Bulk

### Natra Store 4™ Water Saver Granules

**Natra-Store 4™** works in 4 ways to help keep your plants and soil hydrated & healthy.

- Increases water penetration
- Expands to hold water & fertiliser at root level;
- Provides housing for microbes & nutrient;

- Helps relieve stress to plants.

Includes: Zeolite, Potash, Saponins, Kelp, Water Absorbing Crystals, Dehydrated Plant Matter

Ideal for pots, hanging baskets, soil, turf all plants and veggies. Sizes:- 1Kg, 3Kg, 10Kg, 25Kg, Bulk

### Triple Boost™ All Purpose Concentrate

**Triple Boost** is the perfect all round fertiliser for your garden. We blended conventional, 10N-2P-6K fertiliser with **organic compounds** extracted from **fish**, & **earthworm** exudates to give you a product that has **enormous plant nutrition**; coupled with minimal leaching and **excellent up take**. **Seaweed** is added for plant strength and fungal resistance & added **Trace Elements**

ensures luxury uptake of minerals. **Standard** Triple Boost is suitable for domestic or commercial use on all plants, fruit and vegetables, vines, grains, turf and **crop specific formulas** are available. Sizes:- 500mL, 1L, 5L, 20L, Bulk

### Neem Plant Spray

**Neem Oil** has been used in Asia for thousands of years for so many benefits the locals call the tree the **"village pharmacy"** In agriculture it is regularly used as a soil conditioner & as a fertiliser enhancer. Regular use of neem oil will help keep your plants **healthy and shiny**. Use as a stand alone product or Neem Plant Spray can be combined with Triple Boost or liquid fertiliser to help spread and stick the product for enhanced uptake, therefore increasing the **performance** of the fertiliser. BFA Registered

Sizes:- 250mL, 500mL, 1L, 5L, 20L, Bulk

### Plant Care™ Liquid Plant Tonic

**Are insects eating your plants?** Insect attack is usually a sign that the plant is stressing so before reaching for the harsh chemical, try **Plant Care™** once per week for three weeks. This organic plant tonic contains a host of beneficial nutrients that help stressed plants recover but can also just be used as a general tonic to keep them looking great. **All natural** Plant Care is ideal for all plants, natives, trees and

vegies & is a favourite with rose growers.

BFA Registered

Sizes:- 500mL, 1L, 5L, 20L, Bulk

### Bio Trace™ – Trace Element Mixture

**Trace elements** are nearly always deficient in Australian soils as many leach easily through the soil profile....especially in high rainfall areas or sandy soils. Plants symptoms include, yellowing or deformed leaves, blemishes & discoloration, flower & fruit shedding or deformation. It is difficult to know **which** element /s may be deficient without lab testing. Bio Trace™ contains

broad spectrum TE with accompanying macro nutrients in a soil friendly high carbon base. The liquid formula is a fast easy way to correct TE deficiencies.

Sizes:- 500mL, 1L, 5L, 20L, Bulk. BFA Registered

### Organic Link® All Purpose Fertiliser

**Organic Link** is the all purpose fertiliser that can be used on virtually **all** plants. Its a sophisticated product that will take up deficiencies without creating excesses ....just the way nature intended. **Safe to use** on natives, roses & vegies it will not burn & can be used on the whole garden. Natural ingredients include carbon, blood & bone, rock minerals, potash, trace

elements, silica, neem & zeolite; a natural water saver. A high performance slow release product that will last for months. **Apply each season or as required.**

Sizes:- 1kg, 4kg, 10kg, 25kg, Bulk. BFA Registered

### Palm & Cycad Food—Liquid & Granular

**Palms** and **Cycads** look great, both indoors and out for that wonderful tropical feel and our **NEW liquid & granulated** Palm Food is the ideal way to keep them looking healthy and vibrant. As always, we have incorporated the best natural and conventional ingredients to ensure we maintain the soil

health and plant integrity. You simply have to use it. The **no pong** formula makes it perfect for indoor use and around pools and resorts .
